Mr. Sun

(2) Would you describe for me the events that took place here during the Cultural Revolution?

who were workers sent here to suppress workers

[(3) What role did the workers here take during the C.R.?]

(1) As head of political work in this factory, what do you see as the most important job?

(3) In the West, there have been reports the factories were closed, that there was violence during the C.R.

Was production stopped or disrupted here?

Was there violence here?

Was anyone injured or killed here?

Did the P.L.A. come here to help restore order?

(4) What effect did the C.R. have on the workers and their families?

(5) Has the leadership of the factory changed since the C.R.?

(6) What was an average experience during the C.R.?

Mr. Shuen 7/21/73

8 years at factory (1965) a student bef. th, in N.E. China, Heilungkang. & 29 years old. Assigned here by govt - work in assembly section (where we filmed). Technical School graduate - 4 years, industrial machinery (agriculture) Joined the party in 1970, during C.R.

As head of political work, what see as most impt. part of ur job?

To make workers study of M-L + Mao Tse tung Thot in criticizing + refuting capitalist + revisionist = political +

ideological work = basic political consciousness. Everybody org. workers in study groups, to study Communist Manifesto and Anti-Duhring (?); to distinguish real M-L from "sham" M-L. Maintain: to arm workers w/ M-L-Mao's thought so can carry out mass line.

C.R.: [redacted] proletariat vs. bourgeoisie; big character posters, debates carried out in denouncing; to expose those who took capitalist road. 10,000 in one week.

Workers split into 2 factions. End to rid the genuine revolutionaries.

Struggle of 2 lines: Mao vs. "other line" (Liu Shao-chi).

Former St. John's University — training ground and base for missionaries

~~[illegible]~~ for pre-medical training [illegible] nurses since Oct. 1972. — in order to carry out Chairman's directive on medical care. (circa 1965)

700 Students:

Hero since liberation by Faculty of Law +

politics and of
natural science.
Study here 2 years.
Since lit., other
faculties here merged
into other faculties —
mostly transfered to
Fu Jen University.
(There was a medical
faculty here in the
St. John's period).
Campus built 10 years
ago.
Plan to expand, add
faculties for training

medical workers.
(only nurses - para-
medical personnel
("middle category" of
doc = lettuce barefoot
doctors + medical doctors)
being trained now = no pharmacists)
St. John's remained
until 1952.
Became college of law
and politics.
4 a year - middle
school faculty, students
are 12 graduates of
middle schools come to
for medical training.

(Is it just the language barrier to make accurate information so hard to get?)

Wma who is chairman of rev. comm. of school (Kao Min-wen trained as #1 medical school of Shanghai + in army (BLA) as medical worker, dr. med. research bef. coming to this school. Has never been in educational work before. "Opportunity for me to learn" (at the top!).

During C.R. was college of law + politics. Was not closed during C.R. Since C.R. law + politics moved to Hu Tan. (They given would be specific, namely, unless you please.)

Rev. Comm. here: 6th member; "Gone" trained in medical work. Three are leading cadres (old), one so many young, other 2 are for Mao Tse Tung Thought Propaganda Team of the workers. Madame Kao is a leading cadre.

Other 2 principal aims
of Wang's Campaign were:
role: To strengthen political
leadership according to
leadership of Ch. Mao.
To implement new method
line + his class line.
(Read how? In practice?).
Bad in adm. + leadership;
judge who is "entitled" in
carrying out line. Judge
correctness of Comm. decisions

(It is political aptitude training / qualifications etc comes in Chine)

= in many ways a country of non-professionals.

All students and some staff members live here.

This year will enroll another 300 students. Most of graduates go to hospitals: cities + communities. Some in factory clinics.

How much time devoted to nutrition study? 3 45 min. periods a week.
